Swami Vivekanand Subharti University

Sep 2022 - Dec 2025

Bachelor of Computer Applications (BCA)

Experience

Do It Creation (Full Stack Developer)

Feb 2025 - Present

- Developed full-stack web applications using React for frontend and Laravel/Django/PHP for backend services.
- Designed reusable UI components and REST API integrations for scalable applications.
- Worked on CRUD systems, authentication flows, role-based access, and database-driven modules
- Maintained clean code practices, debugging, and optimization for production deployments..

Projects

Globsure – Insurance Company Website (React.js, Tailwind , Email, PHP API) [Project link](#)

- Developed a fully responsive, static informational website for an insurance company using React.js and Tailwind CSS, ensuring clean UI and cross-device compatibility.
- Built a PHP-based email API to handle server-side mailing logic and connected it with the React frontend using API calls.
- Delivered a production-ready website focused on performance, responsiveness, and professional presentation.

Doitcreation – Business Showcase Website (Next.JS, Laravel, MySQL, GSAP) [Project link](#)

- Handled full frontend–backend integration, ensuring secure and efficient data flow.
- Developed and integrated APIs for dynamic content handling between frontend backend.
- Deployed the complete application on Hostinger, including domain configuration and server setup.

Certocean – Online Course Selling (PHP, MySQL, PayPal, Bootstrap) [Project link](#)

- Built a full-stack online course platform using Core PHP and MySQL.
- Developed cart management system including add, update, and remove item features.
- Integrated PayPal API for secure payment processing.
- Structured database and handled backend logic for users, courses, and orders.
